Dear Friend:

I don't know whether it you or me, but our situation certainly has been cloudy. As things stand now we are definitely coming to Atlanta for April 29th.

I don't want to play the Grays in Atlanta before this as there is danger of hurting the 29th date if the game isn't good. We would play them in Atlanta after the 29th if you can arrange it alright with Posey. If we are going to play them it would have to be the 30th, as we must start working our way back home after that.

I would appreciated it if you would write me once more and tell me definitely if you want to play the EAGLES between the 1st and 5th. Otherwise, I can probably get some dates with local teams coming home. I would prefer playing Atlanta if it is possible.
